1. Applicant's election of species I in the reply filed on 10 January 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 through 6, 8 and 10 through 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 line 9, the language "to each retracting position" lacks proper antecedent basis, as a "retracting position" has not previously been clearly and positively recited.

In claim 1 line 19, the recitation "the retracting position" lacks antecedent basis. Further, such recitation raises ambiguity as to the number of retracting positions since line 9 of claim 1 implies plural such positions while line 19 defines only a single such position.

In claim 5 lines 5-6, the language "the retracting position" lacks antecedent basis.

4. Claims 1 through 6, 8 and 10 through 17 appear they would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
